## EPITHELIO.M.A, SKIN-CANCER.

For seven year I suffered with a cancer or my face. All the simple remedies were ap alled to alleviate the pain, but the place continued to grow, finally extending to my nose, from which came a yellowish discharge very offensive in character. It was also inflamed, and annoyed me a great deal. About eight months ago I was in Atlanta, at the house of a friend, who so strongly re-commended the use of Swift's Specific that I determined to make an effort to procure it. In this I was successful, and began its use. The influence of the medicine at first was to somewhat aggravate the sore, but oon the inflammation was allayed, and I began to improve after the first few bottles. My general health has greatly improved. m stronger and am able to do any kind o ork. The cancer on my face began to derease and the ulcer to heat until there is not a vestice of it left. When the other teachers were elected, at the last meeting of the Board, Moon was up North, had not taken the examination, and some of his patrons had preferred the charge of cruelty against him. The trouble in this case was that Professor Morrisette. holding a professional certificate issued by Superintendent Howle, whose term of office expired in July, which, unless revoked, is good for two years longer, claimed that he was not legally required

to take the examination.

Mr. Maurice, on the other hand, refused to recognize the certificate issued by Mr. Howle, and declined to license any one to teach who had not been examined by himself. At the last meeting of the Board the matter was continued and the secretary directed to ask the opinion of Dr. Buchanan, State Superintendent of Public Instruction, on the subject. Dr. Buchanan's letter in reply was read and ordered to be spread the minutes. Dr. Buchanan in his let-

In the latter event he could not be legally employed unless he were reexamined and his license or certificate reissued."

MORRISETTE ELECTED. Messrs. Maurice and Morrissette each made their statement, giving details of the conversations between them, &c., and after some discussion of the subject, and the Chair having ruled that an election might be gone into, the certificate of Mr. Morrissette not having been revoked, Mr. Moore moved that the Board proceed with the election.

Discussing Dr. Mott's Letter-A Lively Fight-A Brave Lad Drowned-[Special telegram to the Dispatch.] RALEIGH, August 24 .- Judge Gilmer has resentenced J. B. Cole, of Moore county, to be hanged at Carthage September 24th for wife-poisoning.

The crime was committed one year ago Cole poisoned the woman gradually to get her out of his way, as he stated. Arthur Avent, aged twenty, a promment young man, who has been spending some time with his uncle, near Jonesboro', committed suicide, asked his uncle where would be the best place to shoot a man if it was desired to produce certain death. He was told, "Just above the ear on either side of the head." He availed himself of the information and took his life. A note was found on his person directed to his mother, imploring her not to grieve for him, saying life in this world was no pleasure to him and that he had rather be out of it. It is thought that he was not exactly sane, though he had shown no signs of insanity whatever.

MOTT'S LETTER. To-day there has been a great deal

of talk about Dr. Mott's letter, and the reply of the Republicans who antagonize him. The split in the party, it was to-day said by a prominent man, is to be permanent. Hon. Ralph P. Buxton, of Fayetteville, one of the leading Republicans in the State, to-day announced that he was opposed to Dr. Mott and his course. It is said that Mott claims he can carry most of the western and Piedmont Republicans in his pocket. He can do little in that way in this section and in the eastern

counties. As has been stated, in the Second district George H. White (colored) is running as the alleged Republican can-didate for Solicitor. John H. Collins, (also colored, and the present incum-bent of that office,) is also running. It is now said that the Convention did not really nominate White, but he chose so to think and assert. The Democrats solicitor there, taking advantage of this

dissatisfaction. To-morrow the Republican Con-gressional Convention of the Second district meets at Kinston.

A LIVELY FIGHT. It is thought that there will be lively

scenes. O'Hara (colored), present congressman, and R. E. Young, of Henderon, are competitors for the nomination, with a tacit understanding that no A BRAVE LAD DROWNED.

All day to-day delegates to the State Democratic Convention have been coming in, but the number is not so great as was expected. From some counties only two delegates came. Some very prominent men are here, and it is evident that the personnel of the Convention will be fine. The Convention will be called to order at noon by Richard H. Battle, chairman of the State Executive Committee. In addition to nominating a chief justice of the Supreme Court and two associate justices the Convention will elect a new State

executive committee.

WATER-WORKS. The Board of Aldermen of this city was in session until a late hour last night considering the matter of waterworks. The committee have made a final report, after working on the mat-ter since the 10th instant, and recommend the gang-well system. This consists of tubes of iron two inches in diameter driven into the ground to a depth of eighty feet and sealed at the top. There are to be sixty of these tubes. It is claimed that this system will give an ample supply. Some claim it will not give pure water and an adequate supply, and insist that the water be taken from the Neuse river. The Aldermen have as yet agreed upon no plan. The report of the committee is

in abeyance.
The venerable Mr. Paul C. Cameron of Hillsboro', sat in the Governor's office this morning beside Governor Scales. Both were looking at a lifesize portrait in oil by J. A. Eider, of Richmond, of the late Chief-Justice Thomas Ruffin, Sr., of the State Supreme Court. Mr. Cameron was greatly pleased with the portrait, and Governor Scales pronounced it marvellously life. like; so also did Colonel William L. Saunders, Secretary of State, and other prominent gentlemen who knew the late Chief Justice. The portrait will remain in the Governor's office until the Supreme Court-rooms and library in the new State building are completed when it will be removed there. Justice Ruffin was the father of Mrs. Cameron, and the latter presents the picture to the Supreme Court. Her father was born in 1787, and died at Hillsboro' in 1870, one of the most onored men in the State and one of her greatest jurists.

[By telegraph to the Dispatch.] WASHINGTON, August 24.-There is no longer any reasonable doubt but that the Government has fully decided to permanently remove from the Territory of Arizona those members of the Chiricahus and Warm-Spring bands of ne

Apaches now on the San Carlos res tion. The only important question and yet decided is said to be where they shall be located. This question, which is regarded as an important one, has received earnest and thoughtful consideration, and there now seems to be a probability that they will be placed on the Forthalian military reservation at St. America m Marion military reservation at St. As-gustine, Fla., where Chinahua and his band are now quartered. The smallness of this reservation is, how-ever, regarded as a serious fault, and some other less objectionable place may yet be selected. It is stated that the detention at Fort Leavenworth, Kun., of Chief Chatto and his dozen comparions, who were returning to their roservation from a visit to Washington, and who, as well as Geronimo and his band of renegades, belong to Chiricabus, ordered as a precaution against their anticipated bitter opposition to the scheme of removal. It is also stated that the President has given his willing consent to the change, and has placed the details in the hands of Secretary Lamar and General Sheridan, and that he warmly approves of the vigorous policy of General Miles and believes that the peace of the Southwest de-mands that the hostiles should be pur-sued until captured or exterminated, sued until captured or exterminated, and that Geronimo, when captured, should be punished as other perpetrators of high crimes are punished.

BOYCOTTED BREWERS. A New Phase in the Trouble-The

Brewers Striking Back. (By telegraph to the Dispatch.) CHICAGO, August 24 .- A special

dispatch from Milwaukee says: A new phase in the brewers' boycott was de-

eloped yesterday, when the Best

Brewing Company served a notice on

Gambrinus Assembly, Knights of La-ber, that unless the boycott declared against the brewery was ordered off before Friday next the company would discharge every Knight of Labor in its employ. The boycott commenced some weeks ago. Previously the assembly had made a demand on the brewers to discharge certain workmen, to the number of twenty altogether, who were either members of the Central Labor Union or non-union men. This demand was refused. Then was formed the boywill make an earnest effort to gain a cott against Best's, Folks, Getteman's, and Miller's breweries. Little attention was paid to the boycott at first, which led to further efforts on the part of the Knights to make it a success. Cards were procured and posted up in conspicuous places, and all the arts of persuasion used to prevent the saloonists from purchasing beer from the boycotted breweries. Now the breweries are beginning to strike back. It is customary in brewenatter who gets it the other will run. ries to issue to each workman so Both sides claim it. Young is a brother of the late Ike Young, a noted Radical and for years collector of this internal-revenue district, and lives at Hender-to prevent constant drinking, which son. O'Hara will run as a black man, pure and simple.

A BRAYE LAD DROWNED.

Would be indulged in if some such check was not imposed. Friday the Best Company abolished the check system and gave money instead, whereby the men could purchase such beer as they wanted. At the same time the company began a system of discrimi tion by giving no money to members of the Gambrinus Assembly, which is backing the boycott. This was not very well received, but the company carnestly persisted, and followed their action up by yesterday's notices. As the brewery employs about 500 or 600 men and its lead will be followed by other boycotted concerns, it is likely that 1,000 or more men will be looking for employment Friday night unless the Knights back good shape to carry out the denounced the boycott as unjust. In case the Knights are discharged union men will be put in their places. It locks very much now as though the brewers are on the eve of a more bitter struggle than they engaged in early in
